

Junior Web Developer Job Description

Beardow Adams – Milton Keynes, England

Introduction:

As a leading global adhesive manufacturer with offices and production sites in multiple countries, we at Beardow Adams continue to grow, prosper, and so do our aspirations. Therefore, we are always on the lookout for bright, talented individuals to join us on our journey to becoming the number one adhesives business worldwide. Could you contribute to the ongoing success of our highly ambitious, but incredibly rewarding company?

Established in 1976, our products are now trusted and used by world-renowned manufacturers all over the globe. Look closely and you will find our adhesives in goods all around you. From the box your cereal comes in, to the books on your shelf, and even your mattress!

We have an exciting opportunity for an ambitious, motivated, and focused individual to join our IT Team as a Junior Web Developer at our HQ in Milton Keynes, UK.

Job Title: Junior Web Developer

Responsibilities:

- Maintain, develop and support the Company's intranet system, SQL server and databases.
- Understand and develop the structure of our Intranet and underlying processes.
- Recognise how the data within the SQL Server is provided to the Intranet, and develop as required.
- Maintain and support the Intranet using DreamWeaver or alternative platform.
- Develop, test and support new or replacement Intranet pages using DreamWeaver or alternative platform.
- Develop, test and support new or replacement data tables/views and stored procedures using SQL Server Management Tools.
- Carry out computer hardware and software maintenance, testing and programming.
- Implement hardware and software security measures.
- Provide backup to colleagues in diagnosing and fixing network problems.
- Assist in producing documents, help / information sheets for employees.
- Provide day-to-day help and advice on an ad hoc basis.
- Develop and support ICT related projects and systems as required.
- Follow all Company policies relating to product safety, hygiene, and H&S regulatory compliance.
